September 2012

7129 Morningside Dr., Halifax. Nova Scotia, B3L 2E5

Volume 30 Issue 9

Our first meeting of the fall will be **September 11, at 7 pm**. We will be meeting at our usual spot in Kent store Dartmouth.

The event for this meeting will focus on our summer challenge. We were to build something that will be used outdoors. If whatever you built is small enough to bring to the meeting for show and tell that would be great. On the other hand if it is too large or attached to your house and you have pictures they can be presented. Any pictures should be sent to Glenn McCarron, [egscn.mccarron@ns.sympatico.ca](mailto:egscn.mccarron@ns.sympatico.ca) who will put them into a slide presentation. Each individual will be able to talk about their own project. Time is running out so get your pictures to Glenn quickly.

Future Challenges for the fall. Sheila reports that she is still working on a schedule of events and challenges and they will be published at a later date.

### Gene's Burls

Thought I would use the column to pass along some info and advice. While working in my workshop I dropped my Hitachi M 12 V Router off the bench and onto the cement floor. I cried for a bit then shook it off and surveyed the damage. Broken handle and lock mechanism. I had no idea where to take Hitachi so I called our friends at Fundy Grinding for a place to take it for repair. They directed me to Deiter's Tool Repair in Burnside. I received it back in about three days with a brand new handle and locking lever. Delighted to get my old friend back I returned to the workshop only to find the on/off switch didn't work so back to Deiter's where I met Deiter himself. He had a quick look and said he would call me. In two days he called to say it was fixed. When I went to retrieve it he apologized profusely for having missed it the first time and –get this—NO CHARGE!!!

Many of us from time to time have need of a tool repair and I was delighted to find Deiter's. The repairs are swift and the price is good. They service and repair, Hitachi, Bosch, Freud, Metabo, Milwaukee, Skil, and Walter.

### Bunk beds

We were called upon once again over the summer to build an additional set of bunk beds for Bay Side camp. That makes a total of 96 bunkbeds that AWA has built. This may be an annual summer event, however it is a great way to share and work together for a worthy cause.
