

Atlantic Woodworker's Association AWA Newsletter

November 2013

7129 Morningside Dr., Halifax. Nova Scotia, B3L 2E5

Volume 31 Issue 3

March meeting will be our second meeting at the Salvation Army, and I think, once we get fully established in that location it will be a great meeting place. Our meetings are normally held the second Tuesday of each month at 7:00 pm.

Our March meeting will be on the 12th at 7 pm, and will involve our AGM with election of offices and reports of the past year. Also our mini Challenge.

Mini Challenge for March is to construct a bench or stool or foot stool or table like bench out of wood of your choice. The item can be for your shop or for your main living quarters or as a gift. If possible please bring in the item on March 12, if not we will accept a picture and description from you in person.

Cabinet 1: ack view - photo by Stan Salsman

These two pictures show our new cabinet for our library. The views show both the front and back view. For those who worked on it's construction and helped in getting it to our new home, the Salvation Army Church we send a big **THANK YOU.**

1 2: The Helper

functioning library again, I would like all overdue books to be returned at our March meeting. Below is a table with names of borrowers, books and dates. There are a number of books that were borrowed on or before June 2012. If these books are not returned at our March meeting, these people will be subject to a fine. Submitted by David Schlosberg - Librarian

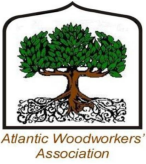

Over due Books

Now that we have a

AWA Library Books Overdue Feb. 2013

Atlantic Woodworker's

Link of interest.

I have recently been using Stockade in Guelph Ontario for small parts ,some tools and plans ./stockade.ca will get you a free catalog Just to let you know and they offer discounts also ..

William Richardson

Recently there has been interest by some members regarding hand planes. This is exciting for me as i love hand tools and really enjoy promoting them. I have been in contact with a friend of mine Jim Bode who deals antique tools out of New York. He has four Stanley Bailey type 19 #4 smooth planes available to me at a great price. \$60 each plus a small shipping fee. Type 19's were made from 1948-1961, they are all in 95% perfect shape and are great user planes.

Every woodworker needs to own and know how to use Planes and chisels it truly will make you a more complete woodworker but most of all its just down right fun! I hope there are some people interested, If there is interest Ric and i would like to put together a demo about how to tune up, Sharpen and properly use Bench planes.

If you want one of these planes send me an email and we will arrange to have one ordered for you.

Cheers,
Nick

AWA Board of Directors 2009-2010

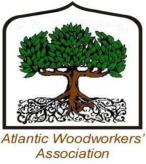

Don Shubaly	Chairman	445-4625	shubes@ns.sympatico.ca

Safety Hint for the workshop:

Things to avoid; Never wear your new shirt or pants into your workshop. It can get you into a lot of trouble.....!

Rolling Pin , Not the one you made.

Atlantic Woodworker's

Newsletter Editor Stan Salsman
Web Master Don Shubaly
Members-At-Large Phil Carter
Doug Macintosh
Ric Archibald

Respectfully submitted by the Nominations Committee members,

Tom Patterson
Don Shubaly
Phil Carter

THIS SPACE IS RESERVCED FOR YOU
ARTICLE.

This newsletter is being produced in Phoenix AZ, where I am at the moment enjoying the sun.

When I was here about three years ago, I helped my son get set up for turning pens. He has made many great pens since that. Of course he branched out into other things like small bowls, hangings for Christmas Trees or as decorations. The one in the picture he had made for us on our arrival. I think that is a great job and we love it, but then he's our son. He is out at the moment so I don't know what finnish he used, however the

wood is Mulberry form his back yard tree.

Also form his tree in the back yard we have been enjoying juicy sweet grapefruit, Mmmmm!
On monday we will be doing a hike through the Aravipa Canyon with temperatures in te mid 20 C, comfortable.

Stan Salsman
